Heidi Houdek, owner of Modern Hippie Design Studio, left a successful career in finance to follow her true passion and reconnect with her creative self. Today, she finds peace in helping her clients achieve their most personal homes.

Heidi's talent for carving out spaces often includes repurposing her clients' most treasured possessions, using sentimental items as the inspiration for entire rooms or special vignettes in niches or quiet corners that allow a moment of pause. "Our goal is to make our client feel like their home reflects their style and who they are as a person. And the best way to do that is to incorporate things that are special to them," she shared.

Innately, Heidi gravitates to layering muted colors, natural materials and textural accessories with new and vintage pieces. While her inspiration comes in many forms and is different for each project and client, the results are always the same: to create a comfortable balance between beauty and function.
